Learn Till You Get Placed- [SocialPrachar.com](https://socialprachar.com)

Breaking the cycle of education without employment. Most students pay fees, complete courses, and end up without jobs. We're changing that with unlimited placement support until you're hired.

The Pain

Why most institutes fail their students and leave them stranded at the finish line.

Abandoned After Classes

Students pay fees, complete courses, but institutes stop support once classes end. Left alone to figure out job hunting.

Limited Opportunities

Few interview calls mean no real chance to prove skills. Students never get the practice they need.

No Real Guidance

Zero help with resumes, aptitude tests, or HR interviews. Students stumble at the finish line despite having skills.
